

Job Title: Data Visualization Developer

Department: R&D

Reports to: Director of Product Management

Position Type: Full-Time, Salaried Exempt

Position Summary

Carrot Health is seeking an experienced Data Visualization Developer. This position is responsible for supporting the development, implementation, and maintenance of Carrot Health's healthcare business intelligence solution. If you want to be part of a fast-growing, entrepreneurial company with a great team culture, we want to hear from you.

Responsibilities

- Design, build, test, and deploy Tableau workbooks and dashboards that meet customer requirements.
- Optimize and enhance Tableau workbooks and dashboards to improve the end-user experience and product performance.
- Create, maintain, and manage product documentation to meet internal and customer standards.
- Work with the Information Security team to ensure that Tableau workbooks and dashboards exceed internal and customer security requirements for protected and sensitive data.
- Provide technical support to the Operations and R&D teams during testing and after deployment.

Qualifications

- 3+ years experience using Tableau to develop business intelligence visualization solutions.
- Proficiency in SQL and R is strongly preferred.
- Proficient in managing, manipulating, and transforming large structured data sets.
- Excellent data visualization and technical design skills.
- Strong ability to turn data into creative, compelling stories for customers and stakeholders.
- Experience developing customer-facing solutions in a hosted, multi-user, secure environment.
- Strong troubleshooting and performance tuning skills.
- Bachelor's degree in Computer Science, Information Systems, or equivalent experience.

Personal Attributes

- Employs a strong work ethic and high standards for his/her own work and the work of others.
- Excellent organizational skills and the ability to handle multiple projects at once, with superior attention to detail and follow-through.
- Excellent written and oral communication skills in the English language.
- Flexibility and ability to adapt quickly to changes.
- Ability to be self-directed and work independently, as well as collaboratively.
- Creative problem solver.

About Carrot Health

Carrot Health has pioneered a new way of using social and behavioral data to understand healthcare consumers. Our MarketView™ software-as-a-service platform delivers actionable business insights that drive profitable customer engagement and revenue growth for healthcare payers and providers.
